## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### ***Response to Arguments***

2. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Polidor et al (5,690,417).

the plurality of diodes wherein each discrete diode is individually oriented to emit a light beam directly directed to a predetermined illumination area and circuit board means structurally associated with the frame means for transmitting and controlling electrical voltage to the plurality of light emitting diodes (14, figs 1,2)

***Allowable Subject Matter***

6. Claims 12-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 2-11,23-41,59-122 are allowed.

8. The following is a statement of reasons for the indication of allowable subject matter: The reasons for allowable subject matter can be found in the previous office action.
